

ELECTION GOING QUIETLY TODAY; RAIN INTERFERES

Prediction Made That Not More Than 1,000 Will Vote

APATHY IN THE STATE

Volusia Showing Great Excitement Over a Bitter Fight

Perhaps never before has a statewide primary passed off so quietly as the one today when the electorate of the state is voting for the nomination of United States senator, for congressmen from each of the four districts, railroad commissioners, members of the supreme court and local officers. From no county comes reports of any excitement with the possible exception of Volusia, where politics are always so red hot.

Throughout the state interest seems to center in local races, if there really be any interest, rather than in the contest for the higher offices. Trammell and Gilchrist have excited little enthusiasm, nor have the congressional candidates, as a rule.

In local politics there are no vivid issues, and those who care to cast a ballot for a friend they do it if it is convenient. Many prominent men were heard to say that they didn't expect to vote at all. Regret that William Jennings Bryan did not enter the race for the senate and stir things up was generally expressed.

At noon today less than 200 votes had been cast in the entire city, and indications are that 300 votes will be a good number at the present rate of voting.

Send Discarded Clothes to Near East Relief Fund

(Special to The News.)

Jacksonville, June 6.—A campaign for old clothing, to keep Armenian sufferers from freezing to death next winter, will be held during the first two weeks in June in every county in Florida, it has just been announced by Dr. A. A. Murphree, state chairman.

June 14 has been designated as "bundle day" and everyone in this county is asked to take or ship their cast-off clothing to the Near East relief clothing warehouse, care U. S. army base, Brooklyn, N. Y.

The Florida committee is especially desirous of receiving as many as it can of coats, sweaters, dresses, wool gloves, mittens, boots, shoes, shopworn garments, sheets for bandages, new clothes or garments and any heavy, warm clothing in which there is still some wear.

The lack of clothing was so acute last winter that, in spite of the generosity of the American people, hundreds of little children were found who had dragged themselves for miles suffering from acute rheumatism and pneumonia, simply for lack of clothing. Others just froze to death.

AVIATORS RESUME JOURNEY
Pernambuco, June 6.—The two Portuguese aviators whose arrival yesterday from the island of Fernando Noronha completed their transatlantic flight from Lisbon planned to fly to Rio Janeiro tomorrow.

Itching diseases can be controlled and cause removed by applying Ballard's Snow Liniment. The relief is prompt and permanent. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Court Square Drug Company.

GIANTS HANG OUT CHAMPIONSHIP RAG IN GOTHAM TODAY

New York, June 6.—The Giants were ready to unfurl their 1921 National league championship banner today at the Polo Grounds as a prelude to opening their first home stand of the season against rivals from the west, the Chicago Cubs forming the first line of the invasion. The world's series emblem, incidentally, will be floated to the breeze next Saturday when the Reds open a series on "George Burns" day in honor of the ex-Giant now with the Morans.

While the western attack on eastern strongholds of the National league was slated to get fully underway, seaboard contenders in the junior circuit were at alien haunts in the other wing of the wheel for the first time.

The Braves lived up to their reputation as trouble makers for the leaders yesterday when Joe Oeschger, aided and abetted by stellar play on the part of his teammates, blanked the slugging Cardinals, 6 to 0, in the only game played in either major league. It was an inauspicious start for the westerners, generally regarded as the Giants' most dangerous rival, and incidentally, the fifth straight they have dropped to the Braves, who took the entire four-game series recently at St. Louis.

Four errors by the Cardinals helped the Hubmen, who hit Jeff Pfeffer hard until he was relieved in the sixth.

RAINY WEATHER EARLY IN YEAR MEANS MANY PESTS

Miami, June 6.—The prediction of mild for rainwater for to wash her hair in coupled with the recent bountiful supply of the water has added another mosquito menace, according to local health officers. The placing of receptacles to catch the soft water has long been a fad, but when the skies respond freely the mosquito hazards become numerous, in the opinion of the health seers. Their decision was rendered after inspecting several of the basins in which they took statistical swims and figured just how many mosquitoes were bred of the standing water.

A bad taste in the mouth comes from a disordered stomach and sluggish state of the bowels. Herbine corrects the trouble immediately. It purifies the bowels, helps digestion, and sweetens the breath. Price, 60c. Sold by Court Square Drug Company.

Miami Bonds Sold at a Premium With Accrued Interest

(By Associated Press)
Miami, June 6.—Five per cent municipal bonds of the city of Miami amounting to \$700,000 were sold today to New York interests for \$710,570 on a basis of \$101.50 or equal to four and seven eighths per cent interest. There were six bids.

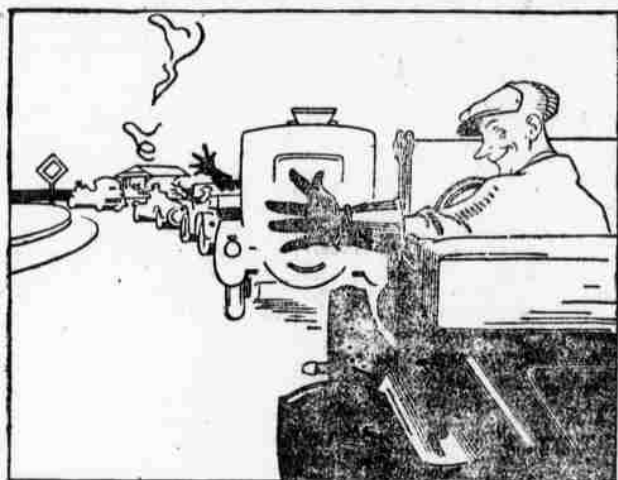

STANDARD OIL TO BUILD OFFICES IN JACKSONVILLE
(By Associated Press)
Jacksonville, June 6.—Plans have been announced at the Florida headquarters here of the Standard Oil company of Kentucky for the building of an office building on the company's property in Riverside to cost approximately \$100,000. The building has been made necessary, it is stated, by the increased importance of the local headquarters, the employees of which have been increased from approximately 20 to 75 in the last few years. It will be a modern office structure with additional space devoted to recreational appointments for the employees.

LENINE SERIOUSLY ILL
Riga, June 6.—The Russian soviet ambassador to Latvia announced today that Premier Lenin is suffering from gastritis, with high temperature.

Joseph Pennell says women are less beautiful than formerly. Perhaps he has noticed, also, that green

How to Stop a Ford without "Jerking"

That faithful little car was not made to start with "jerking" and "chattering". Faulty lubrication is the reason some Ford owners have this trouble. "F" Autoline Oil for Fords will stop "jerky" starting, stopping and reversing.

"F" Autoline for Fords is a motor-oil—not a miracle. It softens the fabric in the brake and transmission band linings and lets them grip the transmission drum as they should.

Dealers Recommend it
The Hoshbach Motor Company, authorized Ford dealer, in Baltimore writes: "The smooth starting and stopping experienced as the result of the use of your oil is remarkable."

"F" Autoline Oil is made by a 90-year-old company, makers of "OO" Autoline Oil, one of the few oils recommended in the Franklin Owners' handbook for use in Franklin Cars.

Money Back Guarantee
Drain all the oil from your crank case and fill it with "F" Autoline Oil for Fords. If the "chatter" isn't stopped, go back and get your money. We guarantee that your Ford will run smoothly.

Look for the red Autoline Oil sign—it shows you where to have "chatter" stopped.

AUTOLINE OIL
"For your motor's sake"
Refinery: Coraopolis, Pa.

apples don't taste as good as they did in his boyhood.

BE SURE

of perfect results on bake-day. Don't spend your time in preparing bakings that contain expensive ingredients and be disappointed when you take them out of the oven. Use

CALUMET BAKING POWDER

not because it's the biggest selling brand on earth, but because it is absolutely the most dependable and economical of all leaveners.

When you employ Calumet Baking Powder you know that your bakings will raise properly because it contains more than the ordinary leavening strength.

Don't waste energy and money on uncertain baking powder—use Calumet, the "pure and sure" brand.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

THE SUCCESS

Of Any Institution is Moulded By the Men Behind the Guns

Below is opinions of a few successful men, who know the character of the management of the—

The Stevenson Gear Co.

Michigan Pattern & Machine Works

Detroit, Mich., June 29, 1921.

Mr. Charles H. Ainsworth,
President and General Manager,
Ainsworth Manufacturing Company,
Detroit, Michigan.

Dear Mr. Ainsworth:

I take pleasure in introducing to you Mr. Richard T. Thornburg, representing the Stevenson Gear Company. I mentioned this company to you at the club Saturday evening.

I accompanied Mr. A. Unser, special engineer of the Ford Motor Company, to Indianapolis on March 10th, 1921, and made a thorough inspection of the machine which the Stevenson Gear Company had recently developed for cutting gears.

I found three machines in actual production, one of which was cutting cash register gears; another was cutting metal slitting slaws at the rate of 1,500 per hour. The largest machine recently constructed, cut gears under my personal observation at the rate of approximately 300 gears per hour.

These machines are not of a broaching type of machine, but constructed with cutting tools radially arranged in a head with positive means of feed control. Although this machine will undoubtedly revolutionize the industry of cutting toothed wheels on account of its speed and accuracy, nevertheless, its simplicity of design is positive proof that it is easily a commercially practical proposition.

I made an extensive investigation of the management of the Stevenson Gear Company with the result that I subscribed for \$5,000.00 of preferred stock, and I know I am doing you a favor in calling this matter to your attention.

Very truly yours,

MICHIGAN PATTERN & MACHINE WORKS,
By FRANK C. SIBLEY, Secretary.

THE ROMNEY BANK

Romney, Ind., July 1, 1921.

To Whom It May Concern:

This is to certify that I have been acquainted with the Stevenson organization and the development of machines known as the "Stevenson Multiple Shaper" from its earliest beginning down to the present time, which covers a period of nearly three years.

I have visited their plant frequently at various times and have seen these machines as they were being developed and later on in actual operation, cutting not only gears, but saws, reamers, spline shafts, milling cutters, etc.

In most instances they cut the entire gear in the same time that other gear-cutting machines cut one tooth and as a consequence these machines are destined to be great time and labor savers, and I believe the machine is bound to revolutionize the gear-cutting industry, and the organization become one of the foremost industrial institutions in our country.

Deeming the above things to be true, as I have viewed the situation, I have made an investment with them.

A. C. NEWBY, M. D.

Sheridan, Ind., June 30, 1921.

To Whom It May Concern:

Having been more or less intimately acquainted with Mr. G. E. Stevenson and a part of his board of directors, for a number of years, it affords me real pleasure to speak to others of them and the company they are so earnestly endeavoring to establish on a sound and permanent basis.

Dr. T. J. Stephenson, President; Dr. E. D. Johns, Treasurer, and Mr. G. E. Stevenson, Secretary and General Manager of the Stevenson Gear Company, have been known to me personally and professionally for a number of years. They are not "promoters," but they are good, honest, square-dealing American citizens, and are known as such by the citizens of their respective communities.

The mechanical success of Mr. Stevenson's invention speaks for itself, but my confidence in the integrity of the personnel of the Company's officials was the special factor which induced me to make a very substantial investment with them.

Dr. E. D. Johns, mentioned above, was the cause of my securing the stock I have. I am the only person in Florida that has any for sale. Will be at the James Hotel this week.

W. E. WOODS.

GIRL NOW WELL AND STRONG

Daughter Took Lydia E. Pinkham's Vegetable Compound as Mother Advised

Wauseon, Ohio.—"My daughter always had backache and leg-ache at certain periods and could not be on her feet at those times. We read about Lydia E. Pinkham's Vegetable Compound doing girls so much good so she began to take it. That is two years ago and she is a different girl since then able to do any work she wants to do—although she is still careful not to do heavy work—and so well and strong. We recommend Lydia E. Pinkham's Vegetable Compound to all mothers with ailing daughters, and I give you permission to publish this letter as a testimonial."—Mrs. A. M. BURKHOLDER, Route No. 2, Box 1, Wauseon, Ohio.

Something out of balance will affect the finest clock, causing it to gain or lose. The proper adjustment made, all is well. So it is with women. Some trouble may upset you completely. Lydia E. Pinkham's Vegetable Compound will correct the cause of the trouble and disagreeable symptoms will disappear as they did in the case of Mrs. Burkholder's daughter. MOTHERS—It is worthy of your confidence.

Attention!

Users of Klim Milk can get it by communicating with Miss Mabel Holcomb. Will make deliveries weekly.
